1 The changes ive done

1. changed the following from non-termina to terminal with thier respective token:
   - id
   - num
   - lambda(with empty space)
   - begin
   - end
   - stringconstant
   - not
2. Change my definition of the num token to NOT contain sign symbols
   1. Consequently changed the `factor` LHS to also include `addop NUM` in its right hand possibillities.
3. In my tokens changed array to be `arr`
